

FHIR Patient Access API Endpoint Summary

Resource: Coverage

The Coverage resource is intended to provide the high-level identifiers and descriptors of an insurance plan, typically the information which would appear on an insurance card, which may be used to pay, in part or in whole, for the provision of health care products and services.

The Patient Access API implements the FHIR Coverage Resource. The Coverage resource supports reading the current state of the resource using the Logical (Unique) ID.

Base Url: <https://interoperabilityapi.libertydentalplan.com/fhir>

Endpoint: GET [https://<baseurl>/Coverage? id={Ids}& count\]\[& lastUpdated\]](https://<baseurl>/Coverage? id={Ids}& count][& lastUpdated])
