

FHIR Patient Access API Endpoint Summary

Resource: Patient

This resource API implements the HL7 FHIR standards and provides the ability to access their data using Third-Party client applications supporting those standards.

The data in the Resource covers the "who" information about the patient: its attributes are focused on the demographic information necessary to support the administrative, financial, and logistic procedures.

Base Url: <https://interoperabilityapi.libertydentalplan.com/fhir>

Endpoint: GET [https://<baseurl>/Patient? id={Ids}& count\]& lastUpdated](https://<baseurl>/Patient? id={Ids}& count]& lastUpdated)

- **Patient by Id**

This resource allows the members to access their data using Third-Party client applications. Retrieve the Patient resource by id.

Endpoint: GET <https://<baseurl>/Patient/{id}>

Parameters: None.
